e22

A bigger welcome. More at a glance.

A 22-inch portrait touchscreen that brings building information, resident services and everyday convenience together at the entrance.

22” PORTRAIT DISPLAY

More room for information

Five content areas create a clear overview of news, the floor directory, public transport and resident services.

Designed for daily use

Book shared facilities, browse documents and connect with neighbours through the community forum.

A useful entrance

Put practical information where residents naturally pass, helping them plan their day and stay informed.

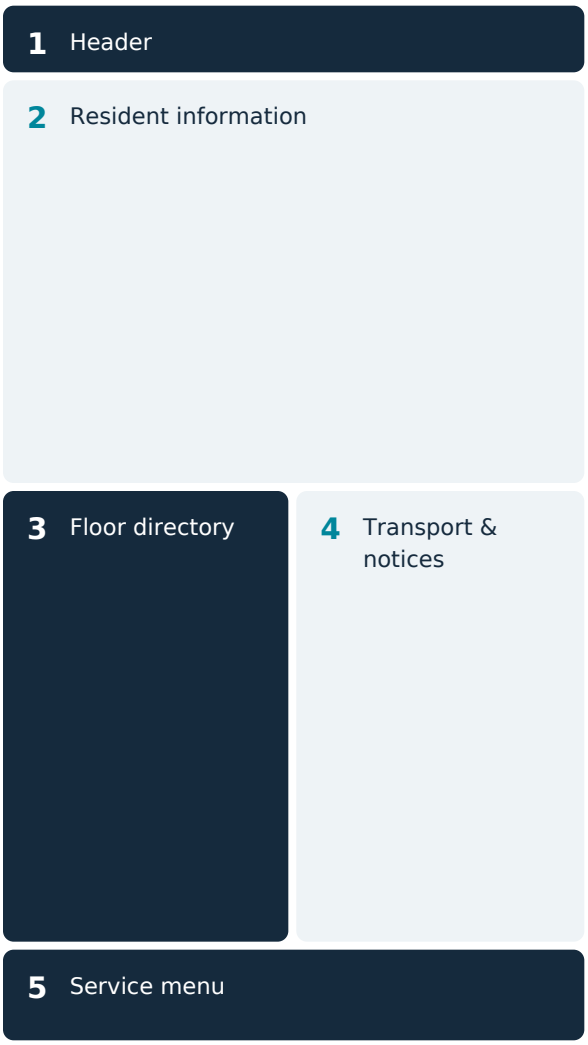

Integrated card access

Combine the display with convenient access using cards or fobs.

Information. Community. Services. One display.

One screen. Five clear positions.

The portrait layout keeps essential information visible while giving residents a simple route to the services they use most.

1 Header

Building identity, time and weather give the screen an immediate sense of place.

2 Resident information

Give building news, planned works and community activities a prominent visual space.

3 Floor directory

Help residents and visitors find the right apartment with a clear floor-by-floor overview.

4 Transport and notices

Display useful travel information alongside practical building updates.

5 Service menu

Offer a simple route to booking, documents, the forum and transport information.

Example layout and content. The five areas can be used to organise the information shown at the entrance.

Designed to inform. Built to bring people together.

Everyday building life, on one screen

Give residents a shared place to find information, organise everyday tasks and take part in their community.

Public transport information

The next journey starts at the entrance.

Display public transport information so residents can plan their journey as they leave. Practical everyday support, right where it is needed.

Document hub

Essential information within easy reach.

Keep building rules, instructions, contact details and community documents in one clear location. Make answers easier to find when questions arise.

Community forum

Give your community a place to connect.

Make room for conversations, questions and ideas between neighbours. A forum encourages participation, useful exchanges and a stronger sense of community.

Facility booking

Make shared spaces easier to enjoy.

Let residents book shared facilities directly on the touchscreen. A clear route to booking makes the building’s amenities easier to use.

Resident information

Put important updates in plain sight.

Highlight service updates, planned works and activities where residents pass. Present important notices in a clear view alongside the floor directory.

Card and fob access

Multiple functions. One solution.

The built-in reader provides convenient access using cards or fobs. Combine access, information and booking to make the entrance work harder for your property.
